DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer does not comply with 37 CFR 1.321(b) and/or (c) because:

An attorney or agent, not of record, is not authorized to sign a terminal disclaimer in the capacity as an attorney or agent acting in a representative capacity as provided by 37 CFR 1.34

- (a). See 37 CFR 1.321(b) and/or (c).

It would be acceptable for a person, other than a recognized officer, to sign a terminal disclaimer, provided the record for the application includes a statement that the person is empowered to sign terminal disclaimers and/or act on behalf of the organization.

Accordingly, a new terminal disclaimer which includes the above empowerment statement will be considered to be signed by an appropriate official of the assignee. A separately filed paper referencing the previously filed terminal disclaimer and containing a proper empowerment statement would also be acceptable.

Note that the MPEP 402.02 states that "Effective June 25, 2004, the associate power of attorney practice has been eliminated. The Office no longer accepts a power of attorney signed by a principal to name an associate power of attorney. An appointment of an associate power of attorney filed on or after June 25, 2004 will not be accepted."

In view of the non-compliant terminal disclaimer the Double Patenting rejection of the previous action is maintained.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it

Art Unit: 1731

pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-19, 45-59 and 61-63 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the use of an extended nip press permeable belt and blowing air successively through the extended nip press belt the first fabric, the web and the second fabric, does not reasonably provide enablement for using a broad extended nip press belt, which could be and it usually is impermeable, and then passing air only through the first fabric the web and the second fabric. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims. Note that as written, the claims are broader than what it is disclosed. The claims as written read on passing the web sandwiched between the two fabrics with the first fabric supported with an extended nip press belt and then after that, passing air through the fabrics and the web, i.e., the passing air step can be performed downstream the first step, i.e., the steps of compressing the web with the combination of fabrics and a belt as claimed.

Response to Arguments

4. The rejections under 35 U.S.C. §102 and §103 have been withdrawn
5. The Double Patenting rejection has been maintained for the reasons discussed above.
6. Applicant's arguments with respect to claims 1-19, 45-59 and 61-63 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

7. Claims 1-19, 45-59 and 61-63 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph and Double Patenting, set forth in this Office action.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

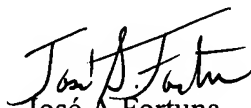

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
